09/12/2022	Chatham	Other	Morris	NJ	Stormwater Projects	59	<p>Restated Post Office Plaza Redevelopment Plan Block 121, Part of Lot 10 and Block 121, Lot 17 Chatham Borough, Morris County, New Jersey September 8, 2022 4. Permeable Pavements: Permeable pavements help to reduce stormwater runoff, which, in turn, helps to improve the quality of terrestrial waters and mitigate flooding. With traditional (i.e., impervious) pavement, stormwater runs into drains and inlets, which places a burden on such infrastructure, and may result in the discharge of pollutants (e.g., sediment, oil residue, etc.) into terrestrial waters. Permeable pavements, however, infiltrate, treat, or store rainwater where it falls.</p> <p>Key examples of permeable pavements include pervious concrete, porous asphalt, and permeable interlocking pavers.</p>	Link to document	Link to Curate doc

09/15/2022	Plainfield	City	Union	NJ	Marijuana	13	On November 4, 2021, the City's Planning Board adopted the 2021 Master Plan Re-examination Report. This Re-examination Report solely addressed the newly legalized cannabis uses in the City. The Report provided that cannabis retail businesses shall be permitted in all districts which permit retail. Further, the Report provided that cannabis cultivation, manufacturing, distribution and warehousing shall be permitted in all districts which permit light industrial uses. This Plan does not permit retail sales or light industrial uses within the Plan Area and therefore cannabis uses are also not permitted, which is consistent with the Re-examination Report.
